SKILLS

- Problem Solving
- Team Collaboration
- Time Management
- Excellent Verbal & Written Communication
- Adaptability
- Attention to Detail
- Leadership

PROFESSIONAL SUMMARY

Versatile Full-Stack Software Engineer with over 4 years of experience building scalable, high-performance web applications using modern technologies across the frontend and backend. Proficient in React.js, Next.js, and Vue.js for crafting responsive, user-friendly interfaces, and skilled in Node.js, Express, NestJS, and MongoDB/PostgreSQL for building robust backend services and APIs.

WORK HISTORY

Software Engineer, GoWithMe Limited

Aug 2025 – Present | Lagos, Nigeria

- Built and maintained backend services for a scalable carpooling platform.
- Integrated Paystack for secure wallet payments and implemented KYC verification using MetaMap for driver onboarding and compliance.
- Developed and optimized notifications and messaging services (Firebase push, Termii SMS, Nodemailer email) ensuring reliable real-time communication.
- Led the development of Admin Dashboard APIs enabling permission-based trip, user, and payment management for super and support admins.
- Collaborated cross-functionally with frontend, product, and QA teams in Agile sprints, ensuring timely delivery and end-to-end feature testing.
- Contributed to infrastructure setup, documentation, and deployment readiness using NestJS, PostgreSQL, and Google Cloud + Render environments.

Software Engineer (Full-Stack),

Estatify Nigeria Limited

Jul 2024 – Aug 2025 | Lagos, Nigeria

- Developed full-stack web applications using React.js, Next.js, Node.js, and NestJS, delivering responsive user interfaces integrated with scalable backend services.
- Designed RESTful and GraphQL APIs, enabling seamless communication between frontend components and backend logic.
- Optimized performance across the stack by implementing server-side rendering, database query tuning, code splitting, and caching strategies, improving overall load times and user experience by 50%.
- Collaborated in Agile sprints, architectural planning, code reviews, and end-to-end feature development using modern DevOps practices and CI/CD pipelines.

Software Engineer, Decagon

Oct 2023 – Jun 2024 | Lagos, Nigeria

- Delivered 5+ full-stack projects using JavaScript, TypeScript, Node.js, Express, and React.js.
- Handled relational and non-relational databases (Postgres, MySQL, MongoDB).

- Wrote unit and integration tests to improve code reliability.
- Collaborated in code reviews and debugging sessions.

Associate Software Engineer, Trax Investment Limited

Sep 2022 – Oct 2023 | Lagos, Nigeria

- Supported senior developers in building scalable solutions, increasing output by 50%.
- Maintained technical documentation and performed regular code reviews.
- Participated in daily standups and team syncs to align on goals.
- Proactively learned new technologies through courses and workshops.

Software Developer, Snapnet Limited

Apr 2021 – Sep 2022 | Lagos, Nigeria

- Led development of enterprise security systems, reducing threats by 80%.
- Developed and enforced cybersecurity standards and best practices.
- Collaborated with legal and compliance teams for security auditing.
- Monitored systems to prevent data breaches and hacking attempts.

PROJECTS

InsureTech API – Insurance & Wallet Management System

NestJS, TypeScript, PostgreSQL, Sequelize, Swagger, Jest

QUEST - Modern feedback collection platform

Next.js, Stripe, Shadcn UI, TypeScript, Database Functions, Drizzle

VaultCraft - Solana SPL Token Management Platform

React.js, TypeScript, TailwindCSS, Solana Web3.js, SPL Token Library, Phantom Wallet Adapter, Vercel

FoodTruck - Online food ordering and delivery app

Node.js, Express, EJS, SQLite, HTML, CSS, Docker, MongoDB, React.js.

MariPDF - File conversion tool

React.js, Next.js, Tailwind CSS

Triva - Interactive quiz app

Node.js, Express, EJS, SQLite, HTML, CSS, Docker.

LearnHub - E-learning platform for tech courses

Node.js, Express, EJS, SQLite, HTML, CSS, Docker.

The Alarm Pro - Calendar with alarm system

React.js, Next.js, Tailwind CSS

Advice Generator - Life hacks generator

React.js, Advice Slip API.

Fruit Slicer - Fun slicing game

HTML, CSS, and JavaScript.

TECHNICAL SKILLS

Languages & Frameworks

JavaScript, TypeScript, Node.js, NestJS, React.js, Next.js, Vite, Vue, Tailwind CSS, Express.js

Databases

PostgreSQL, MySQL, SQLite, MongoDB

DevOps & Tools

Docker, Heroku, Vercel, Google Cloud, AWS, Git, GitHub, Jira

Testing & Security

Jest, Supertest, Swagger, Postman, OAuth2, JWT, Test-Driven Development

Others

Firebase, Solidity, Solana, Smart Contracts, Blockchain Development

EDUCATION

Law (B.L), Nigerian Law School

Nov 2018 – Aug 2019

Law (LL.B), Delta State University

Mar 2013 – May 2018

CERTIFICATIONS

- AWS Cloud Practitioner Essentials
- Google Cloud Computing Foundations
- Introducing Generative AI with AWS
- Scrum Fundamentals Certified
- Cisco Introduction to Cybersecurity - Networking Basics, Cyber Threat Management, Network Defense, Endpoint Security, Networking Devices & Initial Configuration
